..... APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source and is limited to reasonable beneficial use. It is also limited to what the well will produce but not to exceed 2.0 c.f.s. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. This permit does not include the use of water for golf course or public park use and the physical development must conform to the water system plans as submitted. A totalizing meter must be placed on the discharge pipe of the pump and a record of use must be kept at all times. A method must be provided, either air line or opening, for measuring depth to water. The State retains the right to regulate the use of the water herein granted at any and all times. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 2.0..... cubic feet per second.....

Actual construction work shall begin on or before..... February 14, 1962.....
Proof of commencement of work shall be filed before..... March 14, 1962.....
Work must be prosecuted with reasonable diligence and be completed on or before..... February 14, 1963.....
Proof of completion of work shall be filed before..... March 14, 1963.....
Application of water to beneficial use shall be made on or before..... February 14, 1966.....
Proof of the application of water to beneficial use shall be filed on or before..... March 14, 1966.....
